Non-residential applicants: Please provide expected loadings of the prohibited wastes as specified in the Rules and Regulations list of prohibited wastes (§ 4.3.1). For those wastes which exceed acceptable levels, please provide a description of the pretreatment program proposed to reduce wastes to within acceptable standards. (No application for users who will potentially discharge prohibited wastes will be accepted without a pretreatment plan being approved by the District.)

G. SUBMISSIONS

In addition to the materials to be provided as required above, Applicant shall submit the following:

1. If new construction, a copy of a System Development Fee Agreement applicable to the property to be served, signed by the District and the Applicant and evidence that no uncured deficiencies are outstanding pursuant to the terms of such System Development Fee Agreement.
2. If the property is new development, a Local Facilities plan with specifications and design criteria showing service lines and infrastructure.
3. An analysis by the District's Engineer of all water rights available to the property or proposed payment amount in lieu of such rights.
4. If Regional Facilities are to be extended to serve the property, a financial commitment by the Applicant for the expenditures incurred for construction thereof.
5. If the Applicant is proposing to include the property in the District, a description of all land owned by Applicant that is contiguous to the property and a petition for inclusion including remittance of an amount set by the District to pay for inclusion costs.
6. Other submissions as the District may reasonably require for evaluation of the application.

H. AGREEMENT

The applicant agrees and acknowledges that use under the permit must be as limited and defined by applicable law and the Strasburg Sanitation & Water District Rules and Regulations with Design Standards. The applicant bears sole responsibility for compliance with and knowledge of the Rules and Regulations and understands that violation of such can result in legal action and remedies being assessed against the applicant. Connection to, or any other use of, District Facilities without prior approval and acceptance of this application will be prosecuted to the fullest extent allowed. Submission of this application does not vest any right or claim to service in applicant. The District reserves the right to deny any application for service.
